

Maya Segal, Ph.D.

Biophysicist | Data Scientist

September 29, 2023

Recipient

Dear Hiring Manager,

I am writing to express my strong interest in a career in computational biology, data science, and bioinformatics. As a biophysicist with expertise in Python programming, data wrangling, and statistical analysis, I am eager to contribute to your dynamic team.

My academic journey has equipped me with a solid foundation in experimental scientific research and data-driven problem-solving. Throughout my PhD, I developed skills in data management and analysis and a personal interest in well-organized data structures.

Proficient in Python and Jupyter Notebooks, I have developed efficient data pipelines and created insightful visualizations. I have experience extracting meaningful insights from complex biological data sets through statistical analysis.

Detail-oriented and organized, I prioritize documentation and version control, fostering a culture of reproducibility, accessibility, and inclusivity.

I am drawn to data analysis in scientific domains, and I am motivated to apply my skills in decoding genomic sequences, modeling protein interactions, and uncovering patterns in high-throughput experiments.

Flexible in work arrangements, I adapt to remote or in-person work as needed. I'm committed to continuous learning and view each new opportunity as a chance to contribute to the scientific community.

I am excited about the possibility of joining your team, aligning my skills and enthusiasm with your organization's mission. I look forward to discussing how my background can contribute to your success.

Thank you for considering my application. My resume is enclosed for your review, and I welcome the opportunity to discuss my qualifications further during an interview.

Kind Regards,
Maya Segal
